

TIER 2 METRICS

Tier 1 Metrics were released in May of 2022 and are being piloted by thousands of criminal justice agencies across the country. These metrics take advantage of data agencies already have to offer a panoramic view of essential measures and a comprehensive examination of each sector.

Tier 2 metrics build on the foundation of Tier 1 to create a more expansive picture of the entire criminal justice system. Technical Implementation Guides are in development for these metrics, and implementation will begin later this year. Learn more at justice-counts.org
